DECORATIVE GREENS FROM NORTHERN CALIFORNIA!

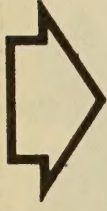

In the past few years, DECORATIVE GREENS, have become more than an important item in the florist's inventory, because of their many uses and long-lasting quality.

The demand for NORTHERN CALIFORNIA DECORATIVE GREENS, has been constantly increasing, because California Greens are as a result of favorable climate superior in quality, rich in color and extremely sturdy and long-lasting.

The purpose of this brochure is to show the various top selling varieties, sizes and shades of greens that are being used by the florists of America.

Most of the greens you are about to see are grown on our nursery. Although we grow and ship many more varieties than shown this is but a preview of the most popular selling ones and the first in a series of brochures on greens.
